INDEPENDENT AUDITORS' REPORT

Board of Directors  
L. P. Littlewood and Associates, Inc.

We have audited the accompanying statement of financial condition of L. P. Littlewood and Associates, Inc. as of December 31, 2007 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to attain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of L. P. Littlewood and Associates, Inc. as of December 31, 2007, in conformity with accounting principles generally accepted in the United States of America.

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated in the state of Illinois on April 18, 1980. The Company is registered with the Securities and Exchange Commission and is a member of the Financial Industry Regulatory Authority (FINRA), formerly known as the National Association of Securities Dealers, Inc. (NASD). The Company's principal business activities are providing investment advice and the purchase and sale of securities.

Long and Short Securities - Securities positions are valued at market value. The resulting difference between cost and market (or fair value) is included in income.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis, which is the same business day as the transaction date.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with a maturity date of less than 90 days when purchased by the Company, and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Depreciation - Depreciation of furniture and equipment is provided for using various methods over five and seven year periods.

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2007

NOTE 2 - S CORPORATION ELECTION

The Company has elected S Corporation status for years beginning January 1, 1992 and thereafter. Income taxes are therefore the responsibility of the Company's shareholders.

NOTE 3 - NET CAPITAL REQUIREMENTS

As a registered broker/dealer and member of the Financial Industry Regulatory Authority, the Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 1500%. At December 31, 2007 the Company's net capital and required net capital were \$103,585 and \$5,000 respectively. The ratio of aggregate indebtedness to net capital was 20%.

NOTE 4 - CLEARING AGREEMENT WITH OFF-BALANCE SHEET RISK

On November 17, 2006, the Company entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. The initial term of the agreement was one year and will be automatically renewed for additional one year terms unless terminated by either party with 30 days prior written notification. The Company is required to maintain a deposit with the Clearing Broker/dealer of \$100,000 to assure the Company's performance under the agreement. This amount is included in "Receivable from broker/dealers" on the statement of financial condition.

The Company is also restricted from entering into similar agreements with other broker/dealers without prior written consent from the Clearing Broker/dealer.

As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.
